RE: BID #2020000464 – DEEP CREEK FORCE MAIN

ADDENDUM NO. 1 BID DUE DATE: JULY 1, 2020 @ 2:00 PM, EST

Bidders are hereby notified that this addendum shall be made a part of the above-named proposal and contract documents.

The following changes to the above specifications and plans are issued to modify, and/or clarify the bid and contract documents. These items shall have the same force and effect as the original bidding and contract documents, and cost involved shall be included in the bid prices. Bids to be submitted on the specified bid date July 1, 2020 at 2:00 p.m., at Purchasing, shall conform to the additions, deletions and revisions listed as herein.

ITEM #1: QUESTIONS/ANSWERS:

- Q1:** Per the Charlotte County Specification on sheet 15 in the plans, the detail on pressure pipe trench states bedding stone to spring line (if required). Is the County inspector or the County going to require bedding stone? Please clarify being that this can be a very costly item if the material is left out of the pricing from Contractor, if required it also could cost the County needless expenses. If this is an option per plans, then can item be added to the pay items for bedding stone per ton?
- A1:** See Standard Drawing Details, General Notes GN-5 BEDDING, BACKFILL, AND COMPACTION in the CCU Design Compliance Standards Dated November 1st, 2011 and Section 002325 – Force Mains in the CCU Design Compliance Standards Dated November 1st, 2011. See SP-04 COMPLIANCE.
- Q2:** Can you provide a link to the full-size plans. Can we get an original pdf in 24"x36" plan size so that they are to scale in order to perform our takeoffs?
- A2:** The full-size plans are 36" x 24" and are included in the Attachments. Adjust printer settings to print on paper size of 36"x24" from a paper source size of 36"x24".
- Q3:** Since there is no pre-bid conference for this project, can you advise if we can have access to existing lift stations to look at the current panels for the pump upgrades?
- A3:** Charlotte County Utilities Department will conduct on-site access to the following Lift Stations in order to view the current panels and pumps, for bidding purposes. All those that would like this access will need to report to Lift Station #321 no later than **8:00am on Wednesday, June 17, 2020**, and we will proceed to the next one according to the times listed. No other access will be granted after these site visits.
- 8:00am - Lift Station # 321 located at 132 Angol Street, at the intersection of Angol Street and Depp Creek Boulevard.
 - 8:45am - Lift Station # 313 located at 26127 Northern Cross Road, at the intersection of Northern Cross Road and Rio De Janeiro Avenue.
 - 9:30am - Lift Station # 309 located at 26286 Bridgewater Drive, at the intersection of Rampart Boulevard and Bridgewater Drive.
 - 10:15am - Lift Station # 118 located at 2040 Willow Hammock Circle, at the Heritage Lake Condominiums.
 - 11:00am - Lift Station # 112 located at 2511 Luther Road, at the Hampton Point Apartments.

All CDC guidelines for social distancing shall be adhered to during these site visits.

This addendum is binding and is to be considered as if contained within the original bid documents of Bid No. 2020000464. Bidders are required to acknowledge receipt of this addendum on their bid forms.
